

## #update: It's been 6 months!

And a lot has happened. We've worked with some amazing teachers, raised money from people truly committed to changing education and begun planning for next year. Here are the highlights.

WE SUPPORTED

**74**

TEACHERS

WHO TAUGHT

**8,665**

STUDENTS

## How were students learning?

We conducted 68 trainings with teachers across the country to help them implement our 3 key programmes this year.

### Personalised Learning

A self-paced interactive learning programme that enables teachers to tackle different capabilities in the classroom.

## What did our teachers think?

Over the past few months we made sure to get regular feedback from teachers about their experience and satisfaction with the tools they selected. Here's what they had to say:

**67%** teachers did not need additional support and were happy with our content recommendations.

**44%** rated the content a '4'\*

\*Scale is from 1-5, 5 being the highest.  
Personalised Learning Programme Feedback

**59%** of our teachers said they did not need more training.

**75%** teachers have used almost all (> 75%) the videos we recommended.

In fact 48% went ahead and used more videos than recommended.

\*Digital Resources Programme Feedback

## What's next?

**125 teachers**

**5 tools**

Planning for next year is well underway. Besides continuing to support our existing 75 teachers with great tools, we're aiming to raise funds for 50 more teachers and verify 3 new resources that teachers will love! We've also decided to focus our efforts in 4 locations: Mumbai, Pune, Lucknow and Hyderabad.

We're excited for the year ahead and hope that you will continue to support our journey in helping teachers achieve their dreams for their classrooms.

"I've always wanted to be a teacher. I feel so happy when I see my children learning, every day I enter my class, I learn something from them."

- Jaya Yele, Rishi Valmiki High School, Mumbai

## THANK YOU!

A big thank you to our amazing community of donors that are committed to helping teachers. Liked what you read? Share this report with your friends and family!
